PROFILE

BSc Computer Science (Cyber Security) student at Oxford Brookes University with a clear ambition to work in Cyber Security. Strong firsthand foundation in secure coding, networking, and hardware, with real project and industry experience finding and closing vulnerabilities. Recently completed an international e-commerce internship at Miral in Abu Dhabi, applying technical and commercial skills in a fast-paced professional environment. Consistently applies skills outside the classroom through self-directed study, hardware experimentation, and supporting others with technology.

TECHNICAL SKILLS

Languages: Python (Google Certified) · C# · JavaScript · HTML & CSS · SQL

Cyber Security: Penetration testing · Vulnerability analysis · Password hashing · SQL injection prevention · Ethical hacking principles

Certifications: Google IT Automation with Python (Certificate)

Tools & Hardware: Kali Linux · CLI · PC/Laptop disassembly & diagnostics

EDUCATION

Oxford Brookes University - BSc Computer Science (Cyber Security) Sept 2026 – Present

– Four-year degree with an industry placement year, building on hands-on cyber security experience gained before starting.

Brockenhurst College - A-Levels Sept 2024 – 2026

– Achieved: Computer Science (C), Business (C), Music Technology (Distinction*)

– Key Project: Built a C# database module with hashed passwords and SQL injection prevention, designing a real security solution rather than a classroom exercise.

LeAF Studio School - GCSEs 2021 – 2023

– Eight subjects including Maths (7/A), English, and Science · Music Technology (Distinction*)

EXPERIENCE

Miral, Abu Dhabi - E-Commerce Intern Summer 2026

– Independently travelled to Abu Dhabi to complete a two-week internship in the e-commerce division of Miral, the group behind Ferrari World, SeaWorld Abu Dhabi, Yas Waterworld, Warner Bros. World, and teamLab.

– Pen-tested a pre-launch campaign page: used nmap and network tools to find where payloads were sent, then intercepted and replayed them at volume. Reported vulnerabilities ahead of launch.

– Produced a competitor benchmarking PowerPoint and presented it directly to the Senior Director of E-Commerce, explaining key differences across competitor websites.

– Adapted quickly to a fast-paced international office, strengthening commercial awareness and professional communication skills.

Absolute Music, Poole - Sales Assistant 2022 – 2025

– Supported retail and stock management systems, developing an understanding of data accuracy and system integrity.

– Oversaw technical product queries, strengthening the ability to explain complex information clearly.

– Provided 1:1 support to improve a family member's computer literacy, covering file management, troubleshooting, and safe internet use.

Commercial Cleaning Company - Cleaning Operative 2023 – 2025

– Worked independently to tight deadlines, proving reliability and on-the-spot problem-solving.

SELF-DIRECTED PROJECTS

– Google Certified Python: Completed automation and data structures modules, building practical scripting skills.

– Hardware Analysis: Disassembled and rebuilt laptops and desktops to understand system architecture and physical security.

– Web Development: Built responsive front-end projects in HTML, CSS, and JavaScript — code available at github.com/Wongers432.

VOLUNTEERING & INTERESTS

– Bournemouth Writing Festival: Runner for two consecutive years, quick coordination and decision-making under pressure.

– Foodbank Hamper Appeal: Volunteered to coordinate planning and distribution of goods to the community.

– Music: Grade 5 Piano and self-taught guitar.

ACHIEVEMENTS

– Travel: backpacking in mainland China, road trips across Canada and Scotland, and a trip to Abu Dhabi for a two-week work internship.

– Selected for a competitive animal-care programme in China, demonstrating initiative and adaptability.
